# Family Planning Program and PA-Breast and Cervical Cancer Early Detection Program

*Penn Highlands Healthcare*

**Penn Highlands Healthcare**

Penn Highlands Healthcare is proud to announce the addition of the Family Planning Program and the PA-Breast and Cervical Cancer Early Detection Program (PA-BCCEDP) to our communities!

These programs will help men and women who are uninsured or insured with high deductibles/co-pay get the care they deserve. We do not want any community member to delay care due to cost or insurance issues.

We are also available to provide educational sessions with groups within our communities to provide information about healthy relationships, abstinence, birth control options, STIs and more!

Please contact Sarah Walker, RNC at 814-371-1900 for more information.
